NATG offers a variety of online training centers, from fully-branded custom solutions to simpler solution on-line training centers. We know that 'one size does not fit all' and we've designed our training centers with the flexibility you need.

NATG specializes in Online training centers that are a hosted, high-value, branded, customized online learning solution providing organizations, large or small, with a robust Learning Management System (LMS) at a fraction of the cost of other systems.

Our solutions allow you to offer employees an "Online Training Center" uniquely designed with the look and feel of your organization. It's populated with only the courses that are meaningful to your company. Courses can be organized into catalogs designed by department, course category, job function, location – the options are unlimited. NATG offers the client the ability to add your company's training documents to the site for all employees to view and check off on. We will customize your Certificates of Completion.

Management and Reporting

Management is the central element of a Learning Management System. NATG's Training Centers includes many easy-to-use administrative features and over 20 standard reports that allow you to keep track of students individually, or monitor entire departments quickly and easily! Our Online Training Centers also offer multiple levels of authority along with controlled access to your courses with user ID, password, and date range to ensure security.

NATG offers the client the ability to add your company's training documents to the site for all employees to view and check off on. We will customize your Certificates of Completion.
