### **Agent & Producer Insurance Fraud Continuing Education**

NATG is committed to providing quality insurance fraud training to all Agents, Producers, MGA's and Brokerage Firms. Our training courses provide the opportunity for agents to understand and recognize insurance fraud. Having the knowledge of insurance fraud and being able to identify fraud in the application process is key to reducing the cost of insurance fraud.

Agents are the doorkeepers of insurance companies. It is the agents job to hand out the keys. When it comes to a company's coffers, fraudsters are always looking for a key, and they don't care how nice of a guy the agent is when they initiate the fraud scheme.

Because Agents/Producers need annual Continuing Education, it only makes sense that the education bring about a real difference... not only to the licensee, but to policyholders and carriers as well. Finally you have the opportunity to not only enhance your own professional capability but to actually have a measurable impact in the fight against fraud.
